

Quality, Health, Safety, Environmental and Social Responsibility Policy

Braskem Idesa believes that Sustainable Development, valuing the Human being and Ethical Conduct are essential to achieve growing levels of business excellence. To convert these beliefs into actions grounded on the principles of Quality, Health, Safety, Environmental and Social Responsibility, we commit to:

This policy represents the commitment of all Members of the Company and its practice adds value to the business.

MEET Customer Expectations.

ASSURE cooperation and partnership with suppliers.

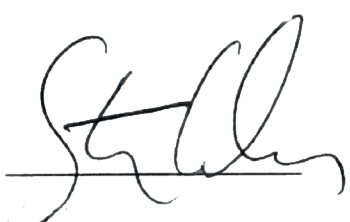

PROMOTE the development of People.

ACT preventively:

- In the Quality of Life and Health of People
- In the Safety of People, processes and heritage
- In environmental aspects and the rational use of natural resources
- In the quality of products and services

Continually **IMPROVE** our processes, products and services, stimulating innovation and meeting legal and other requirements.

MAINTAIN a positive relationship with the communities where it operates.
